Personal Profile *"I have been working for fourteen years as a freelance lighting programmer, production electrician and lighting designer. My portfolio of experience includes theatre, musicals, outdoor events as well as corporate, live music and feature films. I have worked mainly within London and with UK national productions as well as some European productions and worldwide projects in Australia and Japan. I am engaged in ongoing freelance work for MA Lighting as a trainer on their lighting consoles. Through work and further research, I continue to learn more about lighting control systems and video systems."*
